1. Qualitative Information for the Nine Months Ended December 31, 2013

(1) Qualitative Information on Business Results

Consolidated business performance from April 1 to December 31, 2013 is as follows:

Whereas reductions in sales took place on the segment of "Japan" and "Other Regions" from the third quarter of the previous fiscal year, the segment of "North America" and "China" increased sales largely due to weak yen. As a result, net sales for the DSP Group amounted to 284,515 million yen (a 5.7% increase from the same period of the previous consolidated fiscal year). In terms of cost, R&D cost increased mainly because of the progress of development in Boston Biomedical, Inc. (hereinafter referred to as "BBI") and influence of weak yen, despite a decrease in labor costs and amortization. Operating income amounted to 34,652 million yen (a 6.0% increase year-on-year), and ordinary income amounted to 34,333 million yen (a 4.9% increase year-on-year). Net income amounted to 19,158 million yen (a 13.6% increase year-on-year) mainly because gain on sales of investment securities and fair value adjustment of contingent consideration have been recorded as extraordinary income, otherwise impairment loss of in-process R&D and the business structure improvement expenses from the organizational and operational reforms have been recorded as extraordinary loss.

The results by business segment are as follows:

1 Japan segment

Despite of the decrease in sales of long-term listed products, the sales of AIMIX®, a therapeutic agent for hypertension, expanded steadily, furthermore the sales such as METGLUCO®, a biguanide oral hypoglycemic, and TRERIEF®, a Parkinson's disease drug, favorably increased as compared with the same period of previous fiscal year. Whereas the commissioned manufacturing partially terminated and the royalty income decreased, consequently, net sales amounted to 132,531 million yen (a 3.2% decrease year-on-year) and segment income amounted to 49,277 million yen (a 5.7% decrease year-on-year).

2 North America segment

While XOPENEX®, a short-acting beta-agonist largely decreased because of the loss of exclusivity, the sales of LATUDA®, an atypical antipsychotic, which obtained new indications with bipolar I disorder in U.S., having a positive impact for continuing to expand sales. In addition, as the yen keeps weakening, net sales amounted to 106,302 million yen (a 20.7% increase year-on-year). With regard to profit, gains of sales had a larger impact on profit, though selling, general and administrative expenses increased because the impact of yen's depreciation exceeded the decrease of the personnel expenses from restructuring and amortization of patent rights. As a result, segment income amounted to 28,128 million yen (a 122.3% increase year-on-year).

3 China segment

Because the sales of MEROPEN®, a carbapenem antibiotic, remained solid sales additionally due to weak yen, and net sales amounted to 8,156 million yen (a 38.8% increase year-on-year). Otherwise selling, general and administrative expenses increased due to lower yen and increase in the labor cost and sales and marketing expenses. As a result, segment income amounted to 1,656 million yen (a 13.5% decrease year-on-year).

4 Other Regions segment

Net sales amounted to 6,575 million yen (a 13.2% decrease year-on-year) and segment income amounted to 2,488 million yen (a 27.8% decrease year-on-year) largely because exports of MEROPEN[®] decreased.

In addition to the aforementioned reporting segments, the DSP Group has been marketing food ingredients, food additives, chemical product materials, veterinary drugs, diagnostic products, etc. and net sales of these products amounted to 30,949 million yen (a 0.6% increase year-on-year) and segment income amounted to 2,048 million yen (a 13.6% decrease year-on-year).

(2) Qualitative Information on Financial Condition

As for assets, cash and time deposit, notes and accounts receivable, and intangible assets including goodwill in the foreign subsidiaries increased partially because of the yen's depreciation. In addition, tangible fixed assets related to the New Chemistry Research Building at Osaka Research Center also increased in Japan. As a result, total assets increased by 50,972 million yen from the previous consolidated fiscal year-end to 658,191 million yen.

Total liabilities decreased by 2,483 million yen from the previous consolidated fiscal year-end to 255,487 million yen, primarily due to the decrease in accounts payable-other and long-term loans payable.

Net assets increased by 53,455 million yen from the previous consolidated fiscal year-end to 402,703 million yen, mainly due to the increase of the foreign currency translation adjustment.

In addition, shareholders' equity ratio as of the end of current quarter was 61.2%.

(3) Qualitative Information on Consolidated Financial Forecasts

The net sales is now forecasted to be 385 billion yen, an increase of 4 billion yen from the previously-announced forecast, reflecting the brisk sales of LATUDA® and other products in the North America segment. The forecast for operating income remains unchanged at 35 billion yen in light of the expected increases in sales and marketing expenses required for achieving further sales growth in the North America segment. Forecasts for ordinary income and net income likewise remain unrevised.

Note: Forecasts mentioned above are based on management's assumptions and beliefs in light of the information currently available, and involves risks and uncertainties. Actual financial results may differ materially depending on a number of factors, including economic conditions.

Note: Research and development costs are not allocated to any segment as the Group manages such cost on a global basis.

3. Information on impairment losses of fixed assets or goodwill etc. by reportable segment (Significant impairment losses relating to fixed assets)

In the North America segment, in-process R&D deemed to have no future profitability is evaluated as zero in terms of collectability, and 414 million yen is recorded as an impairment loss.

In addition, due to the reform of the organization and the operation in U.S. subsidiary, an impairment loss is recognized for the tangible fixed assets deemed to have little future profitability, and 168 million yen is recorded as Business structure improvement expenses.

(Significant changes in amount of goodwill)

In the North America segment, Sunovion acquired Elevation Pharmaceuticals Inc. (the present name is "Sunovion Respiratory Development Inc.") and it has become our wholly owned subsidiary company.

With this acquisition, goodwill increased by 3,213 million yen during the nine months ended December 31,2012.

The amount of goodwill is provisionary for the present because purchase price allocation has not been completed.

3. Information on impairment losses of fixed assets or goodwill etc. by reportable segment (Significant impairment losses relating to fixed assets)

In the North America segment, an impairment loss is recorded for a part of fixed assets and in-process R&D. Fixed assets and in-process R&D deemed to have little future profitability are evaluated in terms of collectability, therefore 363 million yen and 4,237 million yen are recorded as an impairment loss respectively.

(Significant changes in amount of goodwill)

In the North America segment, the goodwill amount increases by 2,408 million yen due to the result of the additional payment of contingent consideration in connection with the acquisition of BBI.
