

Tax Transparency | FY2023 Archive

Sumitomo Pharma recognizes that tax payment is one of the most fundamental and important social responsibilities that companies should fulfil. We comply with the respective tax laws in each country in which it operates, ensuring correct tax payment in the spirit of its business philosophy. Through this, we strive to build relationships of trust with various stakeholders and contribute to the economic development of each country and region.

We understand that the use of countries or regions with low tax rates or no tax payable (known as "tax havens") will be to the detriment of appropriate tax payments in each country. Therefore, we do not use tax havens for the purposes of avoiding taxes.
